

21st JSOA-KOSSM Combined Symposium of Orthopaedic Sports Medicine Program

| Time | Moderator | Program | Name | Title | |
|---|--------------------|---------------------------------------|---|--|---|
| 8:30-8:35 opening & welcome address | | | | | |
| 8:30-8:35 | | opening & welcome address | Tukasa Kumai | | |
| 8:35-9:40 JSOA-KOSSM session1 free paper | | | | | |
| 8:35-9:40 | Nobuyasu Ochiai | JSOA-KOSSM session1 free paper | Hyung-Lae Cho | Osteochondritis Dissecans of Glenoid in Adolescent Baseball Players: Computed Tomography Quantitative Analysis and | |
| | Yuichi Hoshino | | Tadanao Funakoshi | Anterior Glenohumeral Capsular Ligament Reconstruction with Hamstring in Overhead-throwing athletes | |
| | | | Jing Young Park | Time to return to play after arthroscopic elbow osteocapsular arthroplasty in professional and elite baseball players | |
| | | | Toru Omodani | Ultrasound-Guided Percutaneous Ultrasonic Tenotomy for Refractory Patellar Tendinopathy in High-Level Athletes: A Case Series. | |
| | | | Jisu Park | Isolated Medial Patellofemoral Ligament Reconstruction Does Not Restore Normal Biomechanics of Patellofemoral Joint in | |
| | | | Yukiko Sakamoto | Surgical site infections after anterior cruciate ligament reconstruction | |
| | | | Hideaki Nagamoto | How does foot function affect pitching? Importance of foot function in baseball pitching | |
| | | | Jun Young Choi | High Incidence of Postoperative Re-Sprain Following Suture Tape Implantation for Anterior Talofibular Ligament Insufficiency | |
| 9:45-10:05 travelling fellow doctor presentation | | | | | |
| 9:45-10:05 | Atsushi Teramoto | travelling fellow doctor presentation | Du Hyun Ro | Shallow Trochlear Groove and Narrow Medial Trochlear Width at the Proximal Trochlea in Patients with Trochlear Dysplasia: | |
| | | | Tae-Kang Lim | Arthroscopic-assisted latissimus dorsi tendon transfer versus superior capsule reconstruction for irreparable posterolateral | |
| 10:10-11:10 JSOA-KOSSM Symposium1 | | | | | |
| 10:10-11:10 | Hiroyuki Sugaya | JSOA-KOSSM Symposium1 | Jong-Hun Ji | Comparison study between bridging repair and SCR using ADM in the massive rotator cuff tears | |
| | | | Jin-Young PARK | Jung-Woo Kim | Arthroscopic Superior Capsular Reconstruction by the Mini-Open Modified Keyhole Technique Using an Achilles Tendon-Bone Allograft |
| | | | | Jung-Han Kim | Surgical treatment for rotatory instability of elbow |
| | | | | Norimasa Takahashi | Shoulder injuries in hitters |
| | | | | Naoya Nishinaka | Outcomes of arthroscopic repair of lateral collateral ligament injury associated with lateral epicondylitis |
| | | | | Nobuyuki Yamamoto | Evaluation of shoulder function by PET |
| 11:10-12:00 KOSSM invited lecture | | | | | |
| 11:10-12:00 | Tukasa Kumai | KOSSM invited lecture | Chul-Won Ha | Cartilage regeneration surgery using hUCB-MSC in OA patients | |
| | Yasuyuki Ishibashi | | Soo Hong Han | Effect of Repetitive Corticosteroid Injection on surgery and Long-term outcomes of the modified Nirschl technique | |
| 12:00-13:00 JSOA-KOSSM Symposium2 | | | | | |
| 12:00-13:00 | Hideyuki Koga | JSOA-KOSSM Symposium2 | Nam-Hong Choi | Altered Bony Morphologies as the risk factors for the ACL injury and graft rupture, and the clinical implications | |
| | | | | Hyuk-Soo Han | ACL reconstruction with rectangular tunnel technique and quadriceps tendon-patellar bone autograft |
| | | | | Bio Jeong | Treatment of chronic ankle instability |
| | | | | Yoshiharu Shimozono | Applications of Needle Arthroscopy in Foot and Ankle |
| | | | | Hiroshi Nakayama | Return to sports after osteotomy around the knee |
| | | | | Kazuhisa Hatayama | How to treat ramp lesion |
| 13:00-13:05 Closing remarks | | | | | |
| 13:00-13:05 | | Closing remarks | Tukasa Kumai | | |
| 13:05-13:35 Poster Session | | | | | |
| 13:05-13:35 | | Poster Session | * please check detail of poster session with the other "Poster" sheet attached. | | |

13:05-13:35 Poster Session 1

| NAME | | Title |
|-------------|-------------|---|
| Eun | SeungPyo | The pattern of the bone contusions in non-contact ACL injuries - Comparison between ski and soccer - |
| Ryu | ByeongYeong | Automated Posterior Tibial Slope Measurement Using Lateral Knee Radiographs: A Novel Landmark-Based Approach Using Deep Learning |
| Lee | Joon-Young | Efficacy of Intra-ligamentous Steroid Injection in Pain Reduction and Knee Flexion Improvement of ACL Muroid Degeneration Patients |
| Lee | Byung-Hoon | Early Medial Reconstruction Combined with Severely Injured Medial Collateral Ligaments Can Decrease Residual Medial Laxity in Anterior Cruciate Ligament Reconstruction |
| Lee | Byung-Hoon | Verification in femoral tunnel position during anatomical ACL reconstruction with fluoroscopic assistance using automated analyzer |
| Kim | Dong-Hwi | Is arthroscopic multiple drilling an effective treatment for stable osteochondritis dissecans in the lateral femoral condyle of middle school active baseball players? |
| Choi | SeungMyung | Comparison of percutaneous repair and open repair for delayed treatment of Achilles tendon rupture |
| Jeong | Bi-O | Analysis of radiologic changes using CT scan after treatment with TightRope in syndesmosis injury |
| Lee | SungHyun | Outcomes according to remnant ligament tissue quality after arthroscopic all-inside anterior talofibular ligament repair for chronic ankle instability |

13:05-13:35 Poster Session 2

| NAME | | Title |
|-------------|-----------|---|
| Lim | Tae-Kang | Knotted Versus Knotless Technique For Arthroscopic Repair Of Upper Subscapularis Tendon Tear |
| Kim | Myung-Seo | Preoperative lipidemic control is associated with re-tear rates after rotator cuff repair in patients with hyperlipidemia |
| Ji | Jong-Hun | The Effect of the Calcific Deposit Location in the Combined Calcific Tendinitis and Partial Thickness Rotator Cuff Tears |
| Kim | Jung-Han | Longer peripheral-track lesions are associated with instability after arthroscopic Bankart repair |
| Ji | Jong-Hun | A Comparison of single-row versus suture bridge repair techniques for nearly full-thickness rotator cuff tears |
| Kim | Bo-Seoung | Rapidly Progressive Destructive Arthrosis of the Glenohumeral Joints - 18 cases series |
| Cho | Hyung-gyu | Does the Superior Capsular Reconstruction with the mini open key-hole Technique using Achilles tendon-bone allograft Have Good Outcomes of the Pseudoparalysis? |
| Yutoku | Yamada | Outcomes of Focused Extracorporeal Shock Wave Therapy for Refractory Lateral Epicondylitis of the Humerus |
